LIST OF SUGAR MANUFACTURERS AND CANE GROWERS IN LOUISIANA.

(ARRANGED ALPHABETICALLY.)

CORRECTED TO SEPTEMBER 15, 1909.

Names with the degree mark (°) are sugar manufacturers using the vacuum-strike-pan, and are also cane growers. Those with two degree marks are sugar manufacturers using the other processes—open-strike-pan or open kettle, and are also cane growers. Those with no mark sell their canes by the ton to central factories.

BOLAND MACHINE AND MFG. CO.,

GENTLEMEN—We are well satisfied with the Mallon Improved Cane Carrier Chain bought of you for our Cypremort Factory last summer.

During the grinding season just finished we did not change a slat or have a single stop on account of the new chain. The chain was subjected to heavy strains, as we carry very heavy feeds. We consider ourselves very fortunate, indeed, in having escaped cane-carrier troubles.

Yours very truly,
